## Class Descriptions

### Creative Dance

Creative Dance blends movement, music, improvisation, and basic dance steps while providing an excellent introduction for the future study of all dance techniques. Students learn dance fundamentals while improving motor skills, self-expression, confidence, imagination and social development. Dancer must be fully potty trained, no pull-ups. This is a drop off class.

### Pre-Ballet / Pre-Ballet and Tap

This program takes the basics of ballet technique combined with props and imagination and gives the children a fun and educational class. Large motor skills are highlighted as well as stimulating the brain's coordination. Pre-Ballet and Tap classes also explore rhythms and smaller motor skill. This is a drop off class.

### Pre-Jazz

Jazz is a funkier form of dance. This is an introductory class with jazz basics to fun and kid-friendly music. Dancers will learn the beginning steps of jazz and work on picking up choreography sequences that fuse style and technique. This is a drop off class.

### Pre-Modern

Modern Dance explores movement, space, rhythm and the dancer's own creativity with emphasis on momentum, shapes and patterns. It is inspired by nature, music, art and emotions. This class will contain a basic technique study and improvisation. This is a drop off class.

### Ballet

As students grow; they naturally begin to dance as a form of expression and imagination. We capture this enthusiasm and incorporate it into our ballet program - emphasizing proper ballet technique with a focus on developing strength, alignment, musicality, and the grace that is inherent in the form. As students mature and their bodies develop strength, we transition to a more serious study of ballet technique that will prepare them to be both confident and technically proficient artists.

### Hip Hop

Hip-Hop evolved out of street and break dancing and is characterized by its athletic and bouncy style. Hip-Hop is set to a strong, contemporary beat, builds stamina, and emphasizes body isolations, attitude, coordination, freestyle movement, and rhythm. This form of dance is seen in music videos.

### Jazz

Jazz dance is an upbeat and performative style that is often seen in Broadway productions. While exploring many different stylistic preferences, students focus on principles such as syncopated rhythms, body isolations, precise technical skills, and choreography. Students will be exposed to various styles of jazz such as Broadway, Street and Contemporary to help develop a well-rounded dancer.

### Lyrical

Lyrical is a fusion of ballet and jazz dance techniques. Lyrical dance challenges dancers to use motion to interpret music and express emotion. Lyrical jazz is a very passionate and emotional dance style. It portrays certain emotions and tells a story through every movement made.

### Modern

Modern Dance develops strong creative dancers through the study of technique and improvisation with a focus on musicality, dynamics, floor-work and artistic expression. The class will provide students with the opportunity to create their own explorative movement within a structured class.

### Musical Theatre

This class will focus on the execution of dance as a method of storytelling. In musical theatre, characters sing when emotion becomes too strong to speak and they dance when they are even further transported. This class will focus on Broadway style jazz. Students will enjoy music, singing and choreography inspired by various musical productions and will be encouraged to sing along!!

### Tap

Tap focuses on developing coordination, precision, rhythmic skills, and musicality within both the Broadway and contemporary Rhythm-Tap styles. As students' progress they further develop skills, focusing on clarity of sounds and increasing speed as well as dynamics and musicality.
